

learned that the car used by the gunman was one of three stolen in Dublin Saturday night. The car was abandoned on a side road at Milltown, a few miles from Dublin.

The minister of justice had long known he was a marked man and never ventured to his office or to the government building without a guard. This morning he had just returned from attending the three nation naval party at Geneva, thought that few people knew he was back and that he would slip out to church without being seen.

Escaped Bomb Last May.
The last previous attempt upon his life was in May when a bomb was hurled at him and at President William T. Cosgrave. Sir Gen. Duley caught the bomb in his hand and punched out the fuse.

O'Higgins was thirty-five years of age, but appeared older due to his eleven years of energy sapping work in the whirl of Ireland's fight for freedom.

IRELAND'S STRONG MAN

BY JOHN STEELE
(Special Service)

LONDON, July 10.—Kevin O'Higgins was the strong man of the Irish government. During the so-called war of independence he took little or no part in the actual fighting, but occupied himself with the organization of the underground law courts, which did so much to make British government in Ireland impossible.

He took a leading part in the treaty debate and his biting sarcasm and bitter wit did much to denounce as impractical the proposals of Eamonn de Valera and his followers, who wished to reject the treaty and maintain an Irish republic.

Upon organization of the Irish Free State government four years ago, President William T. Cosgrave selected Mr. O'Higgins as vice president and minister of justice. It was his duty to deal with the rebels against the Free State.

Was Need for Strong Hand.
Mr. O'Higgins saw clearly that a strong man was needed to restore order in Ireland. About three years ago in conversation with the writer, he banged his fist on the table and exclaimed, "By God, these people need a Cromwell, and I am going to give them a taste of it."

As minister of justice it had been his duty to confer sentence of death on seventy-seven rebels and traitors to the Free State. One was Rory O'Connor, leader of the Four Courts rebellion, who was shot at his wedding a few weeks before.

When taunted, during the recent elections, with this list of executions, Vice President O'Higgins declared he was ready to hang seventy-seven more, if necessary, to preserve peace in Ireland.

Was Constructive Leader.

Kevin O'Higgins was much more than an executioner. Due to his work and judgment of mankind, Ireland owes its present judicial freedom, which even the most severe critics admit is extremely good, both in organization and personnel. He was also active in Ireland's foreign relations department and was a delegate to the league of nations. His work during the imperial conference did much to establish independence in the British dominions.

Mr. O'Higgins was a nephew of Timothy Healy, the present governor general of the Irish Free State. He began his life as a student of the priesthood, but later decided he was not fitted for the vocation of a religious life and took up the study of law.

MAY ASK FOR NEW INSTRUCTIONS ON GENEVA IMPASSE

Washington Sees Move to End Deadlock.

(Chicago Tribune Press Service.)

Washington, D. C., July 10.—(Special.)—Washington officials would not be surprised if a suggestion is adopted at tomorrow's plenary session of the Geneva naval limitation conference calling upon the heads of delegations to ask their respective governments for new instructions in an effort to break the deadlock over cruiser tonnage.

Administration spokesmen have not given up hope that the present difficulty will be cleared up, but it is felt that it will be necessary for Great Britain to recede from her demands for a maximum tonnage much higher than the \$10,000 ton limit which she is acceptable to this country, if the conference is to be saved.

Rankies at Washington.

Developments at Geneva indicating that Great Britain is not willing to lose her supremacy on the high seas to accord actual parity to the United States continue to rankle in the minds of administration officials. It was made clear today that this government stands unmovable on its demand for parity with Great Britain and its decision not to sign an agreement unless such a treaty would result in actual limitation of war ship tonnage.

It is hoped here that the conference between Secretary of State Kellogg and Sir Esme Howard, the British ambassador, will serve to convince the British foreign office that this country stands firmly back of Ambassador Gibson in his demand for parity in all classes of ships and limitation rather than the suspension of treaties.

See Big Naval Program.

Agitation by administration officials for cruiser parity with Great Britain has convinced naval observers that a big cruiser program is certain of passage in the next congress. Congressmen have assured naval officials that legislation designed to build the United States navy up to at least the American program advanced by Mr. Gibson at Geneva will be introduced. This would call for the building of at least 145,000 tons of cruisers, and would give this country approximately 300,000 tons of cruisers.

Insull Lays Corner Stone of New Condell Hospital

Samuel Insull yesterday laid the corner stone of the Elizabeth Condell Memorial hospital at Libertyville, Ill. The hospital will cost approximately \$110,000. It received the initial gift of \$20,000 from the late Mrs. Condell. Mr. Insull gave the site and also subscribed towards the \$55,000 already in hand. The Rev. Howard Ganser, Episcopal rector, delivered a congratulatory address. Representatives of the Kiwanis club, the American Legion, and other organizations were among the 1,000 who joined in the ceremonies.

BRITISH STRIVE TO STOP WRECK OF NAVY PARLEY

Make U. S. New Offer on Cruiser Quotas.

(Continued from first page.)

of the eighteen big American ships, thirteen have a range of from 12,000 to 22,000 yards and only five have a range of 31,000 yards, whereas all twenty British battleships have a range of more than 24,000 yards and some as high as 40,000 yards.

Concerning the British proposal to increase the limit of capital ships from twenty to twenty-six years, Ambassador Hugh Gibson will show that the American battleships are from six to nineteen years old, and that in 1931 the Arkansas, Wyoming, Utah and Florida will be obsolete, in 1932 the New York and Texas will be obsolete, in 1934 the Oklahoma and Nevada will be obsolete, in 1935 the Pennsylvania and Arizona will be obsolete, and in 1937 the New Mexico, Idaho and Mississippi will reach the age limit.

Thus the British plan would leave the United States five capital ships, the West Virginia, Maryland, and Colorado, carrying 16 inch guns, and the California and Tennessee, mounting 14 inch guns.

Would Keep U. S. Behind.

The adoption of Great Britain's plan to reduce the size of guns on capital ships would kill the American replacement program providing for the construction of three 35,000 ton ships to replace the four which will go to the junk heap in 1931, and would maintain the United States' inferiority six years longer.

The Americans also have data on the British battleships Renown and Repulse, as the former's displacement was revealed when it traversed the Panama canal with the Duke and Duchess of York. Although the British list the Renown as 26,500 tons, it registered 35,370 tons displacement when entering the canal, and since has been blistered to the extent of 3,000 tons, making its size today 33,370 tons.

British Far in Lead.

American naval statistics show that instead of the United States enjoying equality with Great Britain, the ratio in favor of Great Britain is 6 to 5 regarding capital ships, 6 to 2.3 on aircraft carriers, 5.4 to 1.8 on modern cruisers, 5 to 0 on destroyer leaders, 5 to 7.29 on destroyers, 5 to 2.81 on big submarines, 5 to 8.61 on coast defense submarines, and 5 to 1 on naval bases.

The figures show that Great Britain overwhelms the American naval forces in every category except destroyers and small submarines, and both these types, more than half the American tonnage, were built during the war at the request of the allies, to aid in conveying and for protection against the German U boats. Now they are worthless, dismantled, or laid up.

EX-CROWN PRINCE MARCHES BEHIND BIER OF COUSIN

(Chicago Tribune Press Service.)

KIEL, July 10.—The former crown prince of Germany and his son, as well as other Hohenzollern princes, marched tonight in the funeral procession for Prince Friedrich Siegmund of Prussia, who died at Locarno as a result of being dragged by a horse which he was training for the Olympic games. Prince Siegmund was a cousin of the former crown prince.

Six horses drew the velvet covered hearse, ahead of which walked the former crown prince's son bearing a laurel wreath. Just behind the hearse, bareheaded, marched the former crown prince. torches illuminated the cortege's route through the forest owned by Prince Siegmund's ancestors for generations to the chapel of Nikolaos, on the heights near Potsdam.

MOTORIST BEATEN BY GANG; SHOOT ONE ASSAILANT

(Chicago Tribune Press Service.)

Returning from a hunting trip in Wisconsin, H. T. Hill, his wife and William Atkins, his brother in law, last night encountered a gang of roughs at 20th and Halsted streets after they parked their automobile to attend a carnival. They were badly beaten and the gang fled. Hill took his shotgun from the trunk of the car and went in pursuit. At 20th street and Emerald avenue, he caught up with his assailants and fired a load of buckshot into the crowd, wounding Frank Lindemeyer, 711 West 29th street, in the hip. Lindemeyer was arrested.

BEATEN BY TWO MEN.
With his head battered, John Parapato, 30, of 2900 Green Bay avenue, was taken to the South Chicago hospital yesterday. His chances of recovery were said to be slight. He regained consciousness long enough to state that two colored robbers had beaten him.

REOPEN TRANSIT WORKERS' PAY PARLEY TODAY

(Chicago Tribune Press Service.)

Negotiations between officials of the Chicago Surface Lines and leaders of the conductors and motormen's union, who threaten to call a strike, trying the street cars and elevated trains, unless their wage and insurance demands are complied with, will be resumed in the office of President Henry A. Blair of the Surface Lines this morning.

Following the conference last week, it was announced by Mr. Blair that little progress has been made toward a settlement. It was indicated that the joint meetings will proceed daily through the coming week.

William D. Mahon, international president of the union, heads the union representatives engaged in the conference. Associated with Mr. Mahon are William Quinlan, local president; William E. Taber, treasurer, and Joseph J. Kehoe, secretary.

DISMEMBERED BODIES FOUND IN N. Y. IN TWO DAYS

3 Women Victims; Held Sailor for Death of 2.

New York, July 10.—[Special.]—A quiet brown stone house in a quiet Brooklyn street today yielded the bodies of two women, slain with an ax, their bodies hidden in barrels in the cellar and the cellar flooded in an effort to conceal the crimes.

The discovery of the two murder victims followed two similarly gruesome finds in Greater New York in two days. Yesterday parts of a woman's body, wrapped in old clothing, were found in bushes in Battery park, in lower Manhattan, and today the body of a man, dismembered, was discovered in the basement of a Manhattan apartment. His identity and the cause of his slaying are mysteries.

May Be Same Crime

It is possible that the Brooklyn and Battery park crimes were the same; that the parts of the body found in the park were the missing parts in the Brooklyn tragedy.

Summoned by neighbors in Brooklyn, policemen with flashlights looked into the blackness of the cellar below 13 Prospect place. The beams glared on the water that had flooded the floor and were turned to three men crouched at one side. The dismembered bodies of two women, past middle life, were in the receptacles.

One woman had been struck down on the night of the Fourth of July. This was established later. She was Miss Sarah Elizabeth Brownell, 76, a seamstress who had turned rooming house keeper when her sight failed. The police believe that she was killed for robbery.

Killed Saturday Night

The second woman died in the cellar some time after 7 o'clock on Saturday night. She was identified as Mrs. Alfred Bennett, 48, mother of four children, who had sold the house on Prospect place to Miss Brownell on May 14. The detectives attributed her death to the desire of the slayer to cover his first crime. She had stepped down to the cellar on Saturday night to locate a leak and had not been seen since. It is thought she discovered Miss Brownell's body and was killed by the murderer.

A man of tremendous strength was held at Brooklyn police headquarters tonight on the charge of murder. He was Ludwig Lee, four years in this country from Oslo, Norway, a carpenter and cabinetmaker by trade, but more recently caretaker at the murder house.

Also held, but merely as a material witness, was Christian Jensen, who had roomed with Lee at the house. Jensen, a tall, fair man, is a clerk in one of the Atlantic and Pacific Tea company chain stores. He and Lee had been taken to the cellar and forced to view the finds of the police. A third man, Otto Neilson, was questioned with his friends, but no charge was lodged against him. The police

MAY GET PLUM

Miss N. L. Keeler, secretary of the state board of pardons and paroles, who may be appointed member of the board by Gov. Small.

said that Neilson "put the whole thing up to Lee."

Maintains His Innocence

"Lee's story is shot full of holes," said Inspector John J. Sullivan, "and we are confident that we have the right man."

Lee maintained his innocence. Replies of questions, including District Attorney Charles J. Dodd, Inspector J. J. Coughlin, Inspector Sullivan, and Capt. Arthur Carey, failed to shake the man's dogged insistence that he was not guilty.

The police, however, stressed a chain of circumstances against the carpenter and said that through him and the discoveries in the cellar they were confident they had cleared up the mystery of Battery park. Inspector Coughlin said a piece of bedspread found wrapped about one of the legs found there was identical with pieces of bedspread found wrapped about parts of the two victims.

Lee admitted ownership of a red stained shirt, drying just above the ash cans, said the police, and in his room were found the bank book of Miss Brownell and several other of her belongings.

During Lee's examination, the husband of Mrs. Bennett came in. The husband caught the suspect by the sleeve. "What did you do it for?" he said. The carpenter turned his eyes momentarily on the husband. "I don't know a thing about it," he said, calmly.

Woman, 65, Is Arrested on Pocket Picking Charge

Mrs. Annie Bloom, 65, of 738 Maxwell street, accused by police of pocket picking, was held yesterday at the detective bureau. She is charged with having robbed Mrs. W. B. Grunow from Crystal lake of \$52 at Adams and State streets.

GOV. SMALL MAY APPOINT WOMAN ON PAROLE BOARD

Six Places to Be Filled Under New Law.

A woman may be appointed by Gov. Small to fill one of the six newly created positions as members of the Illinois board of pardons and paroles. So far as could be learned no woman has yet held a membership on the parole board in this state.

The report that the governor is considering seriously making one of his six new appointees to the board a woman was circulated yesterday on the eve of a conference scheduled to take place between the governor and Hinton G. Clabaugh, chairman of the board, tomorrow in Springfield.

Should Gov. Small decide finally to name a woman it is understood that the name of Miss N. L. Keeler, for ten years secretary for the board, will be presented to him as a possibility.

Clabaugh Gives Approval

Mr. Clabaugh was reticent concerning appointments by the governor to fill the places created recently by the legislature by raising the board's personnel from three members to nine. But he stated that he would not oppose having a woman on the board. "I have no idea what view the governor will take," said Mr. Clabaugh. "Incidentally, Miss Keeler, I believe, would make a most efficient and loyal board member. Her long familiarity with the workings of the board equip her thoroughly for membership."

No Hint on Appointees

No intimation has as yet been given by the governor as to his appointments for the five other places. Except for Mr. Clabaugh, the new law in reality vacates the three original places on the board, it was said. Under the former statute these members were Charles W. McCall, Morrison, Ill.; W. W. Rhodes, Peoria, and W. P. Hitch, Paris.

Following his conference with the governor tomorrow, Mr. Clabaugh will conduct alone a pardon hearing, which, unlike parole hearings, may be conducted by one man.

DIVORCE GOSSIP AS VANDERBILT DEPARTS TO RENO

New York, July 10.—[Special.]—Cornelius Vanderbilt Jr., son of Gen. and Mrs. Cornelius Vanderbilt, has gone to Reno, Nev., where, according to published reports, he will seek a divorce from his wife, Mrs. Rachel Littleton Vanderbilt.

Confirmation of Mr. Vanderbilt's departure for Reno was obtained tonight at the offices of the Daily Mirror, where he has been employed as an editorial and special writer. Neither Mrs. Vanderbilt Jr. nor the young man's parents were reached for comment on his reported decision to seek the divorce in Nevada.

CIRCUS MOURNS NEW TRAIN DEAD AT RITES FOR 58

Trainer Killed as Cars Hit Elephants.

(Pictures on back page.)

Performers of the Hagenbeck-Wallace circus who visited Woodlawn cemetery in Forest Park yesterday in tribute to the memory of fifty-eight of their number who were killed in a train wreck near Gary, Ind., in 1918, bowed their heads in prayer for another who met sudden death.

He was Anders Suckwell, 25 years old, a trainer, killed shortly after midnight yesterday when a well-lit Chicago Aurora and Elgin passenger train crashed into a herd of elephants in Aurora. One of the animals was thrown to the ground crushing Suckwell to death under its bulk. The circus was loading up at the time preparatory to leaving for Chicago.

Three Elephants Run Wild

Terror stricken by the accident, three of the elephants ran trumpeting through more than a mile of city streets. They were captured, however, before any damage was done.

After striking the herd the train plowed into a heavy circus wagon. Passengers were thrown into a panic when windows were shattered as the front of the train collapsed from the force of the collision. The wagon was demolished.

Six Injured in Crash

Two passengers on the train and four employees of the circus were injured in the wreck. Elmer Johnson, 38, of Aurora, a passenger, suffered a broken leg while Iver Carlson, 26, also of Aurora, was cut and bruised. Mrs. May Gardner, 27 years old, a woman mahout of the elephant herd, suffered a dislocated shoulder, and her husband, cheerful Gardner, concussion of the brain. The other circus employees injured are Fred Wells and Edmond Welsh, of Loganport, Ind. Welsh's knee was fractured and both were badly bruised.

Members of the Showmen's league and the Circus Fans association were present at the services in the cemetery. The circus people buried three were killed when two trains collided near Gary, taking eighty-four lives and injuring 179 others. A marble elephant marks their final resting place.

Gasoline Blast Burns Son of Timothy Crowe

Francis Crowe, 16 years old, son of Timothy D. Crowe, president of the sanitary board, was severely burned about his face and hands yesterday at Lake Geneva when the gasoline tank of his speed boat exploded. The youth was filling the tank when some of the fuel splashed on the hot decks and became ignited.

WOMAN, 26, TAKES POISON. Mrs. Mylan Novak, 26, of 5002 Drexel boulevard, was taken to the Chicago hospital yesterday after she had swallowed poison, supposedly with suicidal intent. Her condition was described last night as serious.

NINE ARRESTED IN SHOOTING OF WOMAN IN FLAT

Nine persons were being held by the police last night in connection with the shooting of Elizabeth Dunford, 25, of 2130 Lull avenue, early yesterday. Miss Dunford was taken to the American hospital, where physicians found more than a dozen shotgun slugs in her body. Through Theodore Barrett, 719 Wallington avenue, the police learned that she had been shot in a flat at 505 Cass street. Six persons were taken in a raid there.

They said that an unidentified man had come to the window, thrust in a gun and fired. Barrett then put the young woman in his car and went to the hospital with her. Mrs. Anna Baldwin and Paul King of 10 East Grand avenue, are among those held.

O. J. TAYLOR'S LAKESHORE DRIVE HOME RANSACKED

Burglars ransacked the apartment of Orville J. Taylor, an attorney, at 219 Lake Shore drive, and took jewelry and silverware valued at \$4,000, it was discovered yesterday. The building in which the apartment is situated is a few doors east of the Drake hotel. Mr. Taylor has offices at 231 South La Salle street.

Entrance to the Taylor apartment was gained through a rear door, which had been forced. The Taylors returned from a European trip several weeks ago, and after two days at their apartment, went to their summer home at Lake Wawasee, Mich.

They were notified of the burglary by telephone, and motored to Chicago to determine the amount of loss.

PACIFIC FLYERS GET TO HAWAII AHEAD OF TIME

Stall Around in Sky Hour
for Daylight Landing.

By LIEUT. LESTER J. MATTLAND
and ALBERT F. HEGENBERGER.

(Copyright, 1927: In the United States, Canada, Mexico, Cuba, South America, Japan, Europe, and the British Empire, by the New York Times Company. Reproduction in whole or in part forbidden without permission. All rights reserved.)

By Wireless to New York Times and Chicago Tribune.

POWELL ARRESTED.

HONOLULU, July 10.—About 2 o'clock the morning of June 29 we dropped from 10,000 feet to 4,000 feet, up to our center engine slowing down from its carburetor intake having become chilled with the high altitude cold. We flew along, as related in our last article, through clouds of pitch darkness.

At the lower level the frost thawed from the carburetor intake, and the engine picked up. So we climbed back to 7,000 feet. There we found the clouds sufficiently broken so that we could frequently see the stars.

We obtained accurate check on the altitude from Polaris and knew we were nearing the Hawaiian Islands.

"Out Speed to Avoid Night Landing."

Our weather reports before leaving San Francisco indicated we would find rain and clouds around the Hawaiian Islands, and we did not want to land in the darkness under those conditions. So until almost daylight we "stalled," as airmen say, at 65 miles an hour.

A few minutes before daylight we were looking eagerly for the first signs of the mid-Pacific islands. At exactly 6 o'clock, San Francisco time, which is 3:30 Hawaiian time, we saw a light almost dead ahead.

We soon recognized it was Kilauea lighthouse. Then one great black mass, darker than the sky, became recognizable as the rugged contours of Kauai, with which both of us were familiar from inter island flights.

The word "Kauai" was penciled on a notebook and passed between us.

Stall An Hour for Daylight.

We had still an hour until the sky would lighten. So we stilled Kausal before striking for Oahu and Honolulu. We wanted to cross the channel between Kauai and Oahu in daylight.

Just about sunrise we passed over a wide stretch of land near Manana, famous in Hawaii as the "Barking Sands." We knew Richard Grace, the California aviator, was there preparing his monoplane for the flight from Hawaii to the Pacific coast. Soon we saw the light of Grace's camp.

A pistol was fired as a signal to us that they heard our coming. Commander M. B. McComb, commanding officer of the naval air station at Pearl Harbor, we learned later, had fired the pistol.

Welcome Breakfast Simple.

The sun rose as we were circling Kauai at 4,000 feet. The morning light struck off grotesque cloud shapes, turned gray and purple into vivid pinks, crimsons and lavenders. We thought we never had seen such a magnificent sunrise and doubly welcomed it after the lonely darkness through which we had passed.

We headed across Kauai channel

toward Wheeler channel. All sense of fatigue vanished. We opened the throttle at full speed, driving the big Fokker at 115 miles an hour straight across the channel, and swung up over the high plateau between Koolau and Waianae mountain ranges to Schofield barracks and Wheeler field on the plains of Lihalehua.

Schofield barracks, the largest army post in the United States, unfolded before us like a panorama.

Had Not Expected Crowd.

Preparations for the flight had so fixed the idea of secrecy in our minds that we expected to find a deserted airfield.

But as we swung around the corner of the first big hangar we saw the broad field filled with motor cars and thousands of people. All at once it flashed on us that they were waiting to see us land. It was the biggest surprise of our lives.

Then we saw white smoke spurt from a 75 millimeter field gun, fired as a signal we had arrived.

We circled the field once and then taxied down to a stop directly in front of a grandstand.

We stepped out of the plane and received our flying suits. Then came the rush of people to greet and congratulate us.

Hawaii's fragrant flowers were wreathed around our necks and even the plane received its garland.

We had landed at exactly 6:23 a. m., Hawaiian time. We had reached Kauai, 2,455 miles from Oakland airport, in just 23 hours. It was two

hours and forty minutes later when we stepped out at Wheeler field.

After the first tumult of congratulation we were welcomed by the governor, of the territory, Wallace R. Farrington; by the commanding general of the Hawaiian department, Maj. Gen. E. M. Lewis; by the commander of the 14th naval district John D. McDonald, and by other officers.

Old friends were around us everywhere. Among the first was Capt. Lowell H. Smith, the man who led the army planes in the memorable world flight in 1924.

Had Been Waiting All Night.

The crowd had waited for us throughout the night. Soldiers and civilians in tuxedos and sweaters, dainty slippers, and high topped boots, rain soaked and dry, Chinese and Japanese, Portuguese and Filipino, Caucasians and Hawaiians.

Our week's stay in Honolulu was one continual welcome from friends we had known in the service while we were stationed there and from countless others who extended the hand of friendship.

We were guests of the Outrigger Canoe club and were taken on rides in the native Hawaiian canoes.

We were guests at a Luau native Hawaiian feast.

Given Royal Feather Coat.

Hawaiians presented us with beautiful cloaks of feathers like those worn by kings of the islands centuries ago. We were as proud of these cloaks as we are of making the flight.

Honolulu's active chapter of the Na-

tional Aeronautic association entertained us at luncheon and presented us with handsome watches.

On our final night in Honolulu the Sojourners club, an organization of service men, presented us with beautiful cups on which were engraved a picture of our flight and plane.

All these gifts were received, not as tribute to us individually, but to the army organization which planned and prepared for the flight.

GUARD SLAYERS UNTIL DEATH AT JOLIET FRIDAY

Nine deputy sheriffs, working in relay, are guarding the three remaining slayers of Peter N. Klein, who are sentenced to be hanged in the Will county jail next Friday.

Originally six men were convicted of

the crime in which the seventh escaped. One of the six, Bernardo Rios, escaped in March. In a third jail break in June, Gregorio Rios was shot and killed and another member of the band, Charles Shader, escaped. Those who are left for the hangmen, with their last legal recourse exhausted, are Robert Torres, Charles Duchowsky and Walter Stalsky.

All the convicted men were penitentiary prisoners when they killed Klein.

Reduced in Price During July Men's Oxfords For Street and Sports Wear

\$6.85 and \$7.35

Every pair in this assortment has been sharply reduced for this special offering. Every pair combines enduring service and lasting good looks. These qualities are due directly to the fact that we have a hand in not only the selecting of the leathers but also in the building of them into Oxfords of Marshall Field & Company character. There is a variety of tan and black calfskin as well as grain leathers.

Included in this selling event
are Oxfords from England

Do Your Heels Run Over?

If so the heel bone is twisted and can be QUICKLY corrected

Run-over heels (the danger signal) means the heel bone is twisted, throwing the whole delicate arch system of the foot out of balance, bringing various troubles, such as flat foot, weak ankles, fallen arches, or corns, callouses, and bunions. Pains in feet and legs, excessive perspiration of the feet, cramps, and similar troubles are due to misplacement of the bones in the foot structure. All of these are usually quickly relieved and instantly disappear under the gentle ministrations of Nature-Treads. Unlike other appliances, Nature-Treads holds the real cause of the trouble and nature does the rest. Not "crutches" or habit-forming supports. Light, flexible leather and fiber—no metal. Just slip Nature-Treads into your shoes and walk with a new feeling of comfort and freedom. Enjoy healthy, painless feet.

Await Sail

PARIS, July 10.—(U.S. News Service.)—Richard E. Byrd was good-bye to the ship on Monday morning in France. Byrd insisted that the people who were to greet the commander and his companions after the voyage from the airship which they had been in the sea. Afterward Commander Byrd was waiting on Tuesday of the United States, in which he will return to the United States. After a rain, he arrived in the evening, fashionable seaside resort of Wales, there on a board of the Byrd's ship and wanted to meet the man who was engaged in winning the prize. He missed the ship Byrd and Bert Ball at his hotel.

BYRD WILL BID
ADIEU TO HAMLET
WHERE HE FELLOn Way to Cherbourg to
Await Sailing.

PARIS, July 10.—[U. P.]—Commander Richard E. Byrd will spend his last morning in France tomorrow, saying good-by to the villagers of Ver-sur-Mer. Byrd insisted on taking the only time he had to shake hands again with the people who awoke wondering a little more than a week ago to meet the commander and his three companions after they had swum ashore from the airplane America, in which they had been forced to land in the sea.

Afterward Commander Byrd will go to Cherbourg, awaiting the sailing on Tuesday of the United States liner Leviathan, in which he and his crew will return to the United States. After a rain-battered tour of northern France yesterday, the aviators arrived in the evening at Le Touquet, fashionable seaside resort. The Prince of Wales, there on a vacation, had heard of the flyers' impending arrival and wanted to meet them, but as he was engaged in winning \$7,850 at roulette, he missed them. This morning Byrd and Bernt Balchen visited the prince at his hotel.

Byrd Suffers From Poisoning. Joining small parties, Commander Byrd and his crew started toward Cherbourg, the commander motoring with many friends. He was suffering from an attack of ptomaine poisoning, but insisted he was able to make the trip.

Residents of all hamlets on the way turned out to cheer him. Another trans-Atlantic flight is projected. The Barcelona, Spain, newspaper, La Publicidad, has launched a scheme for a Barcelona-New York flight by way of the Azores—a distance of 4,375 miles. The Catalonian aviator, Jose Canudas would be pilot.

Levine in London. [Chicago Tribune Press Service.] LONDON, July 10.—Charles A. Levine, who flew from New York to Germany in the monoplane Columbia with Clarence D. Chamberlin, and who plans to fly back over the Atlantic with his new pilot, the French ace, Lieut. Maurice Drouhin, is here with Mrs. Levine.

Levine said his return flight would be undertaken before the end of this month. John Carls, his chief mechanic, will leave New York July 12 on the Mauretania, and will go direct to Le Bourget field, France, to overhaul the Columbia as quickly as possible to prepare it for the trip.

Loop Crowd Sees Fire
in Rear of Theater

A large crowd leaving loop theaters gathered on Clark street, between Washington and Madison streets, last night when flames were called to extinguish a blaze in a large pile of excelsior in the alley at the rear of the La Salle theater, 110 West Madison street.

ADVERTISE IN THE TRIBUNE

INVENTS DEVICE TO LAND PLANES ON SKYSCRAPERS

Greater Safety in Flying
Expected as Result.

Washington, D. C., July 10.—A propeller-reversing device which, it is announced, will permit an airplane to be brought to a stop within twice its own length after it touches the ground, has been evolved by C. Francis Jenkins of Washington.

Announcing his new invention, for which a patent has been issued, Mr. Jenkins said today that it would now be possible to establish air fields directly in cities and on the roofs of large buildings and eliminate the "slow

and costly hauling of mail, express, and passengers from suburban fields to their real destination."

Feared in the Air
"The reversing device is so geared," he explained, "that it cannot be moved while the plane is in the air, thereby eliminating the danger that the pilot might accidentally pull the lever. When the airplane strikes the ground, a spring automatically releases the safety guard on the reversing control and the aviator is free to bring his plane to rest on ground, dock, or roof almost as instantaneously as a bird ceases flight."

Other benefits of the new device were outlined thus:
"The general use of airplanes for suburb to city passenger service is brought nearer."

"Easier and safer landing."
"It is now possible to bring a plane to rest in the lee of a building, saving both plane and pilot under storm conditions."

"Planes can approach landing fields at a greater rate of speed than before has been possible."

"Tragic like the wrecking of the giant Sikorsky plane, which failed to rise in its attempted flight to Paris, will be averted against. With the new device, the aviator, when he realizes that his take-off is a failure, can stop the plane."

TO TEST AIRSHIP TODAY BRISTLING IN MACHINE GUNS

New York, July 10.—A new airship equipped with turrets and bristling with machine guns will undergo flying tests at Mitchell field tomorrow in the presence of Gen. James H. Fehet, assistant chief of the United States air corps, and a group of officers from McCook field, Dayton, O.

The new bomber is a Curtiss biplane equipped with two 600 horsepower Curtiss motors.

The fighting equipment consists of six machine guns, situated in four armored turrets. In the forward turret are two. A similar turret in the after part of the fuselage carries two

more. The other two turrets, situated outboard on the wing behind the motors on either side, are armed each with a machine gun.

The plane, which is known as a Condor, has provisions for 1,400 pounds of high explosive bombs. It will be manned by a crew of six men.

The plane is designed to have a cruising radius of 700 miles at a speed of 105 miles an hour. The bomber will be equipped with radio and photographic apparatus.

Lieut. Eugene Batten of McCook field, is to be pilot.

ESCAPED GAS KILLS INFANT.
Escaping gas resulted in the death yesterday of the month old son of Mrs. G. M. Geraghty of 6041 West 29th place. She told the police that a bottle of water tipped over, extinguishing the fire in her kitchen stove.

BUILDING PLANE DELAYS TOKIO FLIGHT TO SPRING

St. Paul, Minn., July 10.—The proposed St. Paul-Seattle-Tokio air plane flight, scheduled for around September, has been postponed until spring.

Louis Hill, chairman of the board of directors of the Great Northern railway, who was revealed as one of the chief backers of the event, declared the postponement was made necessary because a suitable plane could not be constructed in less than 90 days. By the end of that time, weather conditions on the route would make flying inadvisable. Mr. Hill was informed.

Charles Holman, St. Paul air mail pilot, is to fly the ship.

Pushman's

"Gold Standard of Value"

How Do You Regard Oriental Rugs?

Do you think of them as a luxury beyond your means, or have you investigated and learned the truth? Have you seen Pushman values?

If you have, you know now that the price of two or three small Oriental rugs that will take the place of one large domestic rug, represents REAL economy, and gives you something that will always be a source of pride and enjoyment.

Get the facts! Compare! you might as well have the best—and cheapest in the long run.

Out of Town Service Guaranteeing all our rugs and carpets as we do, we gladly send rugs on approval to responsible people. Just write us your requirements and approximate price you wish to pay.

NARROW STREETS AGAIN STRANGLE SUNDAY TRAFFIC

Autos Tied Up for Miles
in and Out of City.

Cook county roads again demonstrated yesterday that they could not accommodate the number of automobiles which squeezed out and in the various highways of Chicago. The same tedious miles of waiting cars at intersections and the same slow motion picture when the traffic was in action marked all the main arteries, as few as they are west and north during the late afternoon and evening.

Just outside the combined state, county, and city limits, however, in Lake county, Ind., conditions were considerably different. The roads were leading into Chicago. At 5 o'clock and again at 7 o'clock a careful check showed that automobiles at a volume of more than 4,000 an hour were moving at a rate of from 30 to 40 miles an hour toward the city on the 100 foot motorway on Indianapolis avenue with adequate freedom of movement for drivers.

Slowed Down at Ewing.
This caravan encountered a stoppage point at Ewing avenue, after entering the city, and from that point traffic was badly congested all the way into town.

The principal intersections out in Cook county offered the usual single line scenes depicting cross purposes, and the stop and go regulations gradually pushed the waiting lines far back into the country. As usual, the returning week-enders from out in Illinois and from Wisconsin who detoured their journeys until dark were ensnared in the traffic standstills until late at night.

Call Help for Widening.
The four government units involved in the development of the through highway on Roosevelt road from Michigan avenue to the western county line will be asked to join the meeting at the Palmer house Wednesday noon, at which time an effort is to be made to clear away all existing obstacles now blocking the completion of this thoroughfare as a widened unit straight through the country.

Invitations have been sent to officials of the state highway department, the county highway organization, the west park commission, and the board of local improvements of the city. "There must be some manner in which the way can be cleared for getting action on this highway," Charles M. Hayes of the Chicago Motor club said yesterday. "Out in the country the state highway department will be ready to start pouring concrete on the 40 foot county section within a month. It may be that some aid will be welcome to the state officials in helping

to speed up that portion. If help is required we will try to devise ways to furnish it.

Work Up to City.
"Along the city portion it is obvious that help is needed. The 'bottle neck' from Crawford avenue west is not being disturbed. This work falls upon the city, and if an effort is started now it may be possible to get something done early enough to meet the completion of the western outlet. It is not improbable that Wednesday's meeting will uncover the existing facts concerning the proposed work, and if obstacles exist they can be brought to the surface and dealt with as is best possible."

Gen. Pangalos of Greece Faces Trial Within 35 Days

ATHENS, July 10.—(AP)—The Greek cabinet has decided that Gen. Pangalos shall be tried by the chamber within thirty-five days on charges of improper conduct in office. He was ousted as president of Greece by Gen. Kondylis in August, 1926, and was sent to the island of Crete.

CRACKSMEN GET \$7,000 IN 5 HOUR PLANT ROBBERY

Precious Metal Is Bulk of
Bandits' Loot.

(Picture on back page.)
Six youthful cracksmen spent more than five hours early yesterday rifling a safe in the offices of the Automatic Electric, Inc., at 1001 West Van Buren street, and fled with precious metals and securities valued at \$7,000.

Judging from the fact that the thieves showed no hesitation in picking out the right safe from among a dozen or more in the plant, police believe the robbers had inside help. Entrance was gained by scaling a twenty-foot iron door in the rear, then sliding down a coal chute. Once inside, the burglars surprised and disarmed the watchman, John Moll, of 611 North Wells street.

Take Watchman on Rounds.
Two men were assigned by the gang leader to take the watchman on his hourly rounds, he told police. They forced him to pull twenty-five coils of wire in rotation while the other four men blew open the safe door and hurried out its contents.

Moll tendered his immediate resignation after working loose from his bonds and notifying police. During the progress of the robbery, A. H. Lawlor, the company's fire chief, remained in his office on the fourth floor unaware of the safebreakers' presence.

The metal, consisting of gold, silver and platinum, is used in the manufacture of electrical apparatus. The securities taken were worth \$1,600. Police recalled that in 1920 the company was robbed in a similar manner of \$10,000 in bullion.

Break Open Loop Safe.

Safebreakers who invaded the Bay State building, 149 North State street, obtained \$350 from one safe but were unable to open another containing \$1,200. Police believe that the robbers hid in the building until after closing time Saturday night. Tools left behind them are the only clues.

William Level, 43, colored, of 928 West Lake street, was captured on a loop street shortly after he had shattered a window in the Marks jewelry store, 144 North State street, and seized \$100 worth of gems. Rings showed to the street when he was stopped by Sgt. Patrick Dalton's detective bureau squad. Under his hat they found an old sock containing a piece of iron, with which he had broken the window.

PREMONITION OF ACCIDENT TRUE, WOMAN FINDS

Early last evening Mrs. Marie Waldron, 6618 Drexel avenue, had a premonition that her brother, William Emsig, touring in Pennsylvania with a party of friends and his fiancée, had been injured in an accident. She mentioned her worries to friends. Two hours later she received word that Emsig, Eugene Lautenschlager, Mrs. Anna Waldron, and Pauline Waldron, all of Chicago had been injured in a crash in Bristol, Pa.

Mrs. Waldron was said to be in a critical condition. She was burned when the car burst into flames after another automobile collided with it.

The others were burned while fighting the flames.
Miss Dorothy Flesher, 19 years old, 2844 North Lincoln avenue, was almost instantly killed shortly after midnight last night when she was struck by an automobile at Mannheim road and Franklin street, Franklin Park, Ill. The automobile did not stop. Her body was removed to Tiedman's mortuary in Franklin Park, where it was unidentified for nearly three hours. Identification was made by the father of the dead girl. The death raised the 1927 county auto toll to 484.
Crushed between an automobile and a fence near his home, John Piewa, 9 years old, 1506 Walton street, was probably fatally injured last night. The boy was playing in the driveway of the house at 1522 West Walton street when Mrs. Nellie O'Keefe backed her car into the driveway, striking the boy against a fence.

Fashions that Grace the Evening Hours

Challenging the winter months in beauty and charm, the summer evening mode blooms after the long light hours like an exquisite flower. And whether you choose Ravinia, the roof of some metropolitan hotel, or a fashionable out-of-doors dance pavilion, the picture is ever the same. Gay wraps flame out between white ones of radiant loveliness, velvet and chiffon glide side by side, rhinestones and pearls pick up the strings of colored lights. And ready to add their smartness to each evening occasion are the models portrayed above.

A square of white metallic satin and georgette embroidered in rose and in green and lined with georgette makes an evening wrap of unusual charm. Pictured at the extreme left, \$57.50. Velvet wraps in charming evening shades are \$85.

Misses' Coats, Sixth Floor, Middle, Wabash.

Of classic simplicity, the transparent velvet gown, pictured left, center—a replica of a Vionnet model from the midseason openings. Long fringed tassels carry out its lovely point design. This replica comes in black only, and is \$85.

Women's Costumes, Sixth Floor, South, Wabash.

Transparent velvet with a soft loose velvet bow clinging to its full shawl collar makes a supple evening wrap pictured right. In tiger lily, forget-me-not blue, cherry blossom and black, \$97.50. Other wraps of transparent velvet priced at \$75.

Women's Coats, Sixth Floor, North, State.

One discovers the charm of the new harem skirt in the gown of crepe romaine after Worth, right center. There is a Turkish note, too, in its amusing bead design—a motif of elephants, and mosques. In black, sapphire, Ibis; at \$125.

Women's Costumes, Sixth Floor, South, Wabash.

MARSHALL FIELD & COMPANY

IT'S CORN WEEK, BUT PRESIDENT STICKS TO HILLS

Will Not Attend the Farm
Meeting at St. Paul.

BY PHILIP KINSLEY.

(Chicago Tribune From Service.)
St. Paul, Minn., July 10.—(Special.)—This promises to be a week filled with agricultural interest for the President. On Tuesday he is to receive livestock men; corn and tobacco men are expected to come the week, and on Saturday he is to meet ten thousand or more farmers of the west, coming "into real rough with the soil problem," at a meeting at Ardmore, S. D.
Tomorrow at St. Paul, the hard bit of McNary-Haugenite, or leaders of the left wing movement for government control of farm prices, are to hold a two day session which is regarded as something of a challenge to the President.

As the Haugenites See It.
On the other hand, it is broadcast from St. Paul, the President can learn little or nothing of real farm problems by going to Ardmore, where the dry farming method is chiefly taught.

Leading members of the senate and house who supported the McNary-Haugen bill, and representatives of six surrounding states are expected to meet to consider the situation created by the President's veto of price fixing legislation.

The St. Paul meeting is under the auspices of the Minnesota Farm Bureau federation and allied interests.

Ignored by the President.
Early reports of the St. Paul meeting carried the announcement that it would follow a conference between the President and J. P. Reed, president of the Minnesota Farm Bureau federation. No such conference has taken place. The President will send no message to St. Paul. He will ignore the session and stay in the hills, where the heated voices of the plains are hardly reach. The leaders of the McNary-Haugen group, although so close to him, have made no arrangements to visit him.

PHILIP KINSLEY KILLS FARMER.
Lawrence, Ind., July 10.—(Farm.)—A small fire resulted in the death of John Kinsley, 64, bachelor farmer. It was said the reason for the fire was that Kinsley was a bachelor and was a wicked man. The fire started in a barn and spread to the house.

RUMOR DAUGHTER OF BANDMASTER BREAKS TROTH

Marie Kryn, the younger daughter of Bohumir Kryn, bandmaster, who, like her sister, Josephine, declared that she would marry for love, is reported to have called off her engagement to wed.

Several months ago she announced her coming marriage to Count Spitz Hadji-Krisacos, a reputed wealthy Greek scholar. "Really, it's most romantic," she said. "I've already bought my trousseau."

Miss Kryn is quoted as having changed her mind about marriage in a dispatch from Lexington, Ky., where her father is now conducting. "I won't say anything about whether or not I'll marry within the next five years," she said, "but it won't be Count Spitz when I do, and the man I do marry will be an American."

Like their father, the Kryn sisters are musicians. Each promised her father not to marry before the age of 30, but in 1924 Josephine was released from her pledge to marry Paul White, a composer.

To clear
your head

When your mind is heavy,
your intestinal tract may be
to blame. Neither mind nor
body function well when poi-
sons have accumulated as a
result of constipation.

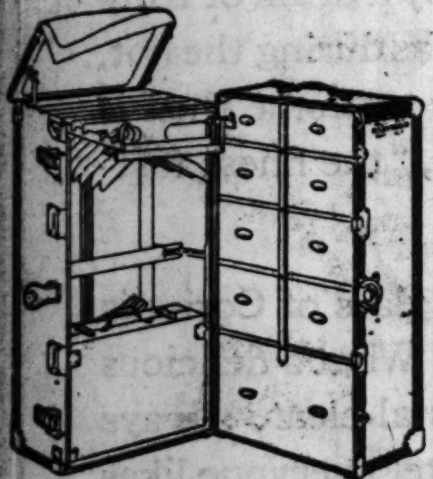

In that condition Envo is a
great help to clearheadedness
and bodily well-being.

There's nothing about Envo
to remind you of the harsh
action and disagreeable taste
of ordinary "salts." A dash
of it in water makes a spark-
ling, delightful draught. And
its laxative action, while mild,
is thorough!

At drugists, 75c and \$1.25.

TROOPS RUSH TO AID OF SAXONY FLOOD VICTIMS

Dead Set at 200; Survivors Hunt Bodies of Kin.

[Chicago Tribune Press Service.]
PIRMA, Saxony, Germany, July 10.—Troops and hundreds of relief workers are rushing into the valleys of the two tributaries of the Elbe river—the Gottleuba and the Muehla—which were devastated yesterday by floods that followed a cloudburst. All during yesterday and today workers have been retrieving bodies of victims from the swollen streams and from the masses of mud and debris carried by the flood. It was estimated tonight that 200 persons were killed in the two valleys by the flood. The

bodies of many dead have been washed up near here. The Red Cross led the relief expedition and was followed by the communists, fascists, "Steel Helmets," and republican "Reichsbanner" forces, all of them bringing food, tools, and medicine chests, and all forgetting political differences for their work of mercy. They relieved the men of the reichswehr (national guard) technical emergency service, who were breaking down after twenty-four hours of work.

Field Kitchens Bring Food.

Field kitchens from the Dresden reichswehr headquarters are on the way with food. Drinking water is being hauled up the mountains, where all the springs are drowned in mud. Heavy pumps were brought in motor trucks to clear the houses, many of which were swamped in mud up to their roofs. Progress is slow, as the roads are broken down or covered by water or mud.

The Tribune correspondent with the greatest difficulty reached Bergschubel, to find the survivors there uncovering the bodies of relatives or friends buried under the wreckage of their homes.

Mud Buries Noted Springs.

Bergschubel's pride had been the springs sparkling with fresh water which was sold throughout Europe. Not a trace is left of the springs or

resorts. The water was the only source of wealth for the district. Engineers are digging through fifteen feet of mud to uncover the springs.

Nearby children are digging in the mud silently. Some of them fish out food and devour it. The streets are strewn with the bodies of cattle. The remnants of the villages have been cut off from the surrounding country by a torrent 120 feet wide replacing the usual peaceful small stream.

In Glashutte the last of the injured were rescued this noon in a railroad coach in which they had been locked up since 10 o'clock Friday night. The storm swept the cars off the tracks, crushing the travelers.

Sunday excursionists invaded the stricken valleys. But the relief expedition authorities put a guard at the entrance to every village and only those willing to work or donate at least a mark (25 cents) were permitted to enter.

Storm Ravages Italy.

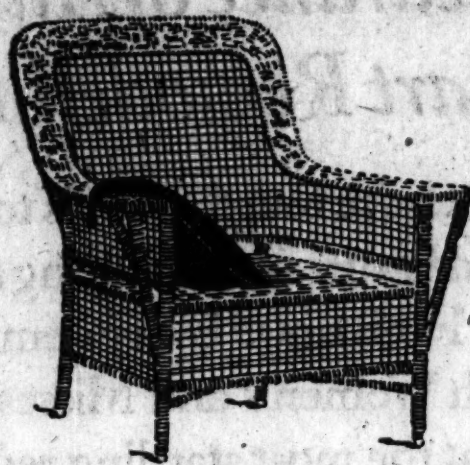

ROME, July 10.—The furious storm which caused so much damage in Saxony yesterday extended along the Alps and Apennines, being particularly destructive in north and central Italy. The tempest was so violent last night that Sig. Balbo, undersecretary for aviation, was flying from Vienna to Rome, was prevented from crossing the Apennines and was obliged to land at the airfield of Ferrara.

WOMEN'S EQUAL RIGHTS CRUSADE IS WORLD-WIDE

Colorado Springs, Colo., July 10.—A world campaign for equal rights for women was urged before the National Woman's party convention by Miss Dorothy Evans, noted London feminist and member of the

international advisory council of the party. "We consider that the time is now ripe for the consolidating of our forces internationally in order to carry out an intensive campaign to bring before international opinion the world wide demand of women for complete equality with men," she declared. "The necessity of the moment is for the formation of a more closely united international alignment," she asserted.

DRY LEAGUE IS MIGHTY ENGINE OF PROPAGANDA

Most Powerful Lobby the
World Has Seen.

(Continued from first page.)

world and who will omit all the gruff and emotional fervor that is so disgusting to people of education and refinement." He suggested that Prof. Irving Fisher of Yale and "one or two other intellectuals" be placed on the program.

Embarrassed Even Anderson. William H. Anderson, then superintendent of the New York league, who later served a prison term for mismanagement of the \$10,000 fund scandal, pointing out "how embarrassing it would be at this juncture if there should be any publicity, right on the eve of our national convention, right on the eve of the meeting of congress, at which enforcement legislation will be up."

"You can readily appreciate how this embarrassment would be further increased and the situation complicated in case anything should come out that casts any reflection upon your use of public funds and it should also come out then or at approximately the same time that you have been considering the matter of becoming a public official for the purpose of entering the national prohibition law."

This is the same William H. Anderson who is now directing the American Protestant alliance, the personnel and annual expenditures of which he refused to divulge.

League Drops Dinwiddie.

The Anti-Saloon league executive committee adopted a resolution disclaiming responsibility for the conduct of Dinwiddie, which it pronounced "a serious mistake," and refunded to the state department the amount Dinwiddie had expended. Not long thereafter Dinwiddie and the league parted company, since which time he has been directing the work in Washington of half a dozen temperance and other reform organizations.

Official reports of the Anti-Saloon

league contain references to the satisfactory results of efforts to get government appropriations to pay the expenses of delegates to the international congress, which, according to Wayne B. Wheeler, have been productive of a vast amount of effective propaganda.

The Anti-Saloon league and the world congress against alcoholism jointly finance in large part the International Prohibition association, which disseminates its propaganda through teachers and students, the records of the Anti-Saloon league showing appropriations of \$20,000 a year for this purpose. The Scientific Temperance federation, of which Prof. Irving Fisher is honorary chairman, and which issues propaganda on the physiological effects of alcoholic beverages, also has received an Anti-Saloon league subsidy of \$5,000 a year.

Flaugh Heads New Body.

The latest prohibition propaganda organization to take the field is the alcohol information committee, with headquarters in New York City, the presiding genius of which is Prof. Fisher and the majority of the personnel of which is composed of educators. Dr. Fisher writes that as the committee was not organized till last January there is "no report available regarding activities or expenditures during 1926." The body is circulating a pamphlet entitled "Why a 'Wet' Candidate Will Never Be President," accompanying the article with this explanation:

"The wet have been making a prodigious drive for more than a year.

They claim great success and are evidently hoping to discourage the dries, especially those dries who live in the wet states and are dependent for their information on the wet press. Fair-minded men are asked to read the enclosed article taken from the February issue of the Success Magazine.

STABBED TO DEATH IN FIGHT.

Andrew Korman, colored, 5730 South La Salle street, was stabbed and killed yesterday by Christ Park, colored, after the two had battled with their fists in front of 5110 South La Salle street.

Probe Bomb and Fire in Furniture Company

(Picture on back page.) An investigation is under way following an explosion yesterday which shattered windows of the Lawrence Furniture company, 4228 North Kedzie avenue, showering glass on passerby. Fire broke out and an estimated damage of \$20,000 was caused. Police found a half dozen inflammable liquids in the room.

Hammond today welcomes an aerial caravan that foreshadows a new era of commercial transportation.

This remarkable fleet of airplanes, competing in the third annual National Air Tour for the Edsel Ford reliability trophy, is scheduled to arrive at Hammond at 3:30 p. m.

All but two of the 24 craft entered in this 4,000-mile flight are protected with Berry Brothers' finishes—among them, Berryloid, the high-luster lacquer used on fine motor cars here and abroad. Ninety-five per cent of America's commercial airplane manufacturers use these same products because of their unequalled durability.

Guesswork has no standing in the aeronautical industry. This explains the almost unanimous preference exhibited for finishes made by Berry Brothers.

For durability and economy you should use Berry Brothers' finishes, enamels and lacquers. For your car, specify Berryloid; for floors, Liquid Gravel; for woodwork, Lustrary Enamel; for exposed surfaces and cement work, Lincolnton Floor Enamel; for household purposes, Berry's Brushing Lacquer.

1927 INTER- RECEIPTS FISCAL YEAR

Washington, D. C., July 11.—Internal receipts for the fiscal year 1927, according to figures prepared by the Internal Revenue Service, increased \$25,589,484, or 1.5 per cent, over the receipts of the preceding year. The aggregate collection for the year ended June 30, 1927, was \$1,589,484,484, as compared with \$1,563,895,000 collected in 1926.

An increase of \$245,715,000 in the receipts of the year's revenue was offset by a \$210,220,516 decrease in the miscellaneous receipts from the sale of government bonds and securities.

The total receipts for the year ended June 30, 1927, totaled \$1,589,484,484, as compared with \$1,563,895,000 collected in 1926.

Among the states, the total of \$217,284,545 in

Second Floor, North.

Turkish Bath Towels at 35c Each

They are hemmed and bleached and have borders in colors.

Parchment-Color, Water Lily and Beige Kidskin

Shoes Reduced to \$11.75

Tell the Exceptional Values in The Twice-Yearly Sale

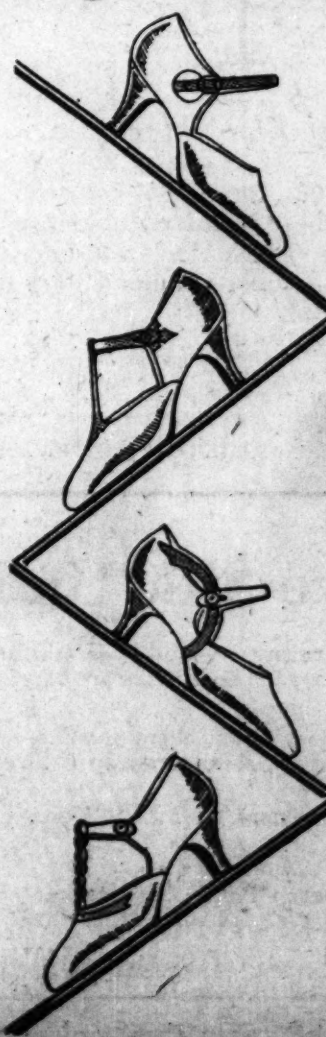

NOTHING is more important in footwear fashion this season than these pale-tinted kidskin shoes. To find them at practically the beginning of the wearing season, so much underpriced, means much in the way of real economy.

They Have the Little Finesse in Fashioning
And Distinction in Detail Which Give
Them Uncommon Smartness

In this grouping there are strap styles, some trimmed with astralac. Slender contrasting bandings are introduced, medium and low heels, and the soles are turned by hand.

It Is Again Emphasized That Every Pair of
Shoes in Our Stocks (Except Arch Sustainer
Shoes) Are Reduced for This Sale.

Third Floor, South.

This Coat Smart for the Seasons of Travel and Town \$50

READY now for summer travel for its soft mixture fabric is smartly worn or conveniently packed—just as one finds necessary.

A squirrel collar of new design gives it the slightest degree of formality for

"Back in Town"

In brown and tan or gray mixtures with fur dyed to match. Carefully lined in silk crepe. For women.

Fourth Floor, North.

Chiffon Silk Hosiery

"Silk to the Top"
With Black Heels

\$1.35

SILK to the top, and with lisle-lined hems and cotton reinforcements at the toe and sole, which contribute so much to service that they are of decided advantage in silk hosiery.

This finely woven sheer hosiery, with the fashion-favored black heel, may be chosen in the following colorings—

Evening, Rose Taupe, Nude,
Atmosphere, Dove Gray, Parchment
And Other Desirable Shades

First Floor, North.

Continuing This Unusual Sale of Sheer Cotton Fabrics At 38c Yard

SOFT, sheer cottons that drape with exquisite grace or pleat into the jaunty lines of mid-summer outdoor fashions.

So That One May See Immediately Their
Smartness, Models Will Wear Frocks
Developed in These Fabrics, According to
Pictorial Review and Vogue Patterns

And such charm of design and beauty of color! Tiny sprigged patterns, brilliant dotted designs, and flowers, large garlands. They're too many and too different to detail. Special, 38c yard.

Printed Cotton Voiles

Many with Dark Backgrounds

\$1.00

Another group which is exceptionally interesting at this time, presents printed voiles—much navy blue and black with the red printings so prominent this summer. These are 38 inches wide, \$1 yard.

TOUHS BEAT WAUKESHA.
Waukesha 10, July 10.—The Touhs defeated the Waukesha semi-pro baseball team, 4 to 1, here today in a Midwest league game that went ten innings before a decision was reached. The Touhs assaulted Bixby for three runs in the tenth to win.

FAMOUS CHICAGO BEATEN.
Fort Wayne, Ind., July 10.—The Fort Wayne nine today defeated the Famous Chicago, 3 to 1, in a closely contested game. Fort Wayne bunched hits to win.

Eckersall's Notes of the Boxers.
PROMOTER FLOYD FITZSIMMONS, who will put on the world's lightweight championship bout between Sammy Mandell, the title holder, and Phil McGraw, the challenger, in Detroit on Friday night, has announced the supporting card. Midway Mike O'Dowd, the Louisville bantamweight, will meet Clarence Rosen of Detroit in the eight round semi-windup. The other bouts will be between K. O. Redmond of Pontiac and Snowflake of Chicago, Buck Taylor of Chicago and Dick Watz of St. Paul, and Bobby Rendley of Toledo and Roger Bernard of Flint, Mich.

The Chicago boxing fraternity looks for Mandell to defend his title successfully. The fans are willing to wager 2 to 5 on Sammy's chances and the odds are expected to go to 3 to 1 before the fight.

Tom Laird and Mark Kelly, Pacific coast boxing writers, are in Chicago on their way to the Dempsey-Sharkey fight in New York on July 21. Laird left yesterday for the east, while Kelly will remain in Chicago for the show tomorrow night. He then will go to Detroit for the Mandell-McGraw bout.

The Belle Plaine A. C. will hold an amateur show at 2943 Lincoln avenue on Thursday night. Ten bouts will be staged and the show is open to the public.

"Good Drive Begins At the Tee," Says Diegel.
"I select my tee as carefully as I do a club," says Diegel. "And the Reddy Tee fits the bill." Everywhere, leading golfers use the Reddy Tee. Reddy Tee gives longer drives. Longer lasting; all white birch. Easier to insert to adjust, to find every stroke. Play red or yellow. Sold everywhere. Accept no substitutes. Always ask for

PRINCES DOREN SEEDS MONEY RECORD.
It is the aim of Montfort and B. Jones, owners of Princess Doren, to make her the biggest money winning mare of all time on the running track. She needs about \$30,000 in stakes money to her credit to surpass the record of Soopie, the English mare, which accounted for \$197,913 during her racing career.

The Lake Geneva stakes at a mile, which engages some of the high speed horses of the west, features today's card at Lincoln Fields. Barbara, Chicago, Superfrank, War Eagle, Minervus, and Little Cyn are some of the ones that will go into action. The race carried an overnight value of \$1,600 in added money.

LINCOLN FIELDS ENTRIES.
FIRST RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

SECOND RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

THIRD RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

FOURTH RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

FIFTH RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

SIXTH RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

SEVENTH RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

EIGHTH RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

NINTH RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

TENTH RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

BARRETT'S WIN, 2 TO 1.
The Barrett's stopped the winning streak of the Collegians semi-pro nine at Winnetka park yesterday, winning 2 to 1.

KRUTCOFFS WIN, 5-4.
The Krutcoffs defeated the Joliet (Ill.) nine, 5 to 4, yesterday at Joliet.

Horses from Latonia Join Colony at Lincoln Fields

BY FRENCH LANE.
The summer turf season at Lincoln Fields will reach full racing strength today, when several hundred horses arrive from Latonia, where racing ended on Saturday.

The arrivals will include a division of the Edward R. Bradley stable. Handy Mandy, winner of the Latonia Derby and Oaks, and many other good horses. Their addition to the sport at Lincoln Fields this week should provide the best racing that has come to Chicago in many years.

Chance Play Still Here.
Chance Play and Display, the east-siders which came for the \$25,000 Lincoln handicap on Saturday, will be kept here for a time and they may fill one more racing engagement before heading east for the Saratoga meeting in August. Several others in the Arden Farm's string were shipped with Chance Play, and will begin going into action early this week. Display joined the western division of the W. J. Salmon stable which will race here throughout the season.

The success of Chance Play in Saturday's big race will bring more eastern horses here for the other rich stakes on the Lincoln Fields program. It is believed, and there is much talk of those two match races which will find Anita Peabody racing Dice for the 2 year old title and Princess Doren hooking up with Black Maria in another special.

Princess Doren Seeks Money Record.
It is the aim of Montfort and B. Jones, owners of Princess Doren, to make her the biggest money winning mare of all time on the running track. She needs about \$30,000 in stakes money to her credit to surpass the record of Soopie, the English mare, which accounted for \$197,913 during her racing career.

The Lake Geneva stakes at a mile, which engages some of the high speed horses of the west, features today's card at Lincoln Fields. Barbara, Chicago, Superfrank, War Eagle, Minervus, and Little Cyn are some of the ones that will go into action. The race carried an overnight value of \$1,600 in added money.

LINCOLN FIELDS ENTRIES.
FIRST RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

SECOND RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

THIRD RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

FOURTH RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

FIFTH RACE—Purse \$1,200, claiming 3 year olds and up, 6 furlongs—Time 1:10. 110: Boyard, 111: St. John, 112: Sun Fire, 113: R.M., 107: Boyard.

KRUTCOFFS WIN, 5-4.
The Krutcoffs defeated the Joliet (Ill.) nine, 5 to 4, yesterday at Joliet.

Grand Circuit Opens Today at Toledo Track

Toledo, O., July 10.—(AP)—The 1927 Grand Circuit harness racing season opens here tomorrow. Two large stakes, each worth \$20,000, headline the opening week's events. The meet will move to Detroit next week.

The circuit will shift back into Ohio again in August, when a two week program will be held at North Randall. The Cleveland meet will be featured by the Rainy Day two year old trotting sweepstakes, worth approximately \$15,000, and the championship steeplechase, with a probable purse of \$10,000.

Most of the owners shipped their strings to Toledo last week following the unexpected end of the Northampton meeting at Akron, which was closed due to lack of patronage.

The three events carded tomorrow are the Mooner, the three year old pace, purse \$2,000; the Steadman, two year old trot, purse \$1,500, and the \$10,000 open trot, claiming price \$1,500. More than 30 horses have been named in the open trot, which will probably make it necessary to run the race in divisions.

The class 8 Pace, \$25,000, is slated for Tuesday and the class 10, Hotel Secor trot, also \$25,000, for Thursday.

SIX CONTESTS ON BANKERS' LEAGUE CARD TOMORROW.
Another heavy schedule of games is listed this week in the Greater Chicago Bankers' Baseball league. Six games are carded for tomorrow. The schedule:

CENTRAL SECTION—Tomorrow—First National vs. Foreman National; Wednesday—Northern Trust Co. vs. Standard Trust; Thursday—Illinois Merchants vs. H. M. Rylander & Co. All at Quigley park.

SOUTH SECTION—Tomorrow—Washington Park Bankers' vs. Woodmen Trust at Washington park. Peoples Stockyards vs. Chicago City at Ogden park. Drovers National vs. South Side Trust at Ogden park.

WEST SECTION—Tomorrow—Mercantile Trust vs. First National; Wednesday—State Bank vs. Madison-Rodriguez; Thursday—Independence State vs. First National of Otero. Liberty Trust vs. Kansas American. Friday—Mid City Trust vs. B. B. State Bank. All at De Paul field.

NORTH SECTION—Wednesday—Lake View Trust vs. West Side Trust; West Town State vs. Home Bank; Thursday—Lake View vs. Home Bank; West Side State vs. Union Bank. All at De Paul field.

JUNIOR SECTION—Tomorrow—Chicago Bank vs. Central Trust. Both at Lincoln Park.

Lake Superior Trout Retreat to Deep Water

BY BOB BECKER.
Lake Superior's lake trout fishing is about over for the year, according to the report brought to Chicago a few days ago by Dr. C. F. Harris, the physician-sportsman of Bayfield, Wis. Bayfield sportsman yesterday made their last trip over the blue waters of Lake Superior to troll for the big trout, which early in the summer can be taken in comparatively shallow water. From now on anglers may expect to drop their tackle with a couple of pounds of lead and drag the bottom at 200 or 300 feet if they wish to connect with old nanyush, the trout of the big lake.

There are two seasons in the year when the fishing is excellent for Lake Superior trout—in the spring and early summer up to about July 10 and in the winter when ice fishing is in order.

In the spring and summer the lakers stay in the shallow water as long as nature provides generous meals of insects. Then you can take your bass tackle, hook on a spoon and troll for fish weighing from a few pounds up to 30 or 35, all fighters of the finest caliber.

As soon as the hatches of flies become scarce the trout bid good-by to the rocks and upper waters around the islands of Bayfield and down they go to the cold depths of the lake. Such a migration is expected at this time, and most of the sportsmen will put aside lake trout tackle until this winter.

The class 8 Pace, \$25,000, is slated for Tuesday and the class 10, Hotel Secor trot, also \$25,000, for Thursday.

IF BAKER MAKES WEIGHT MUSHY'S TITLE'S AT STAKE

Fighters Set for Battle Tomorrow Night.

BY WALTER ECKERSALL.

It is not until one has seen the fight between the two champions, the world's junior welterweight champion, and the American Legion show, profits of which will go into a fund to send disabled sailors and soldiers in Chicago hospitals to the American Legion convention in Paris this coming September.

When articles for this match were signed the agreed weight was under 145 pounds. The junior welterweight championship is 140 pounds. Callahan is the junior champion, and if Baker comes in under the weight he can win the title, regardless of Callahan being over the weight. If the articles had read not less than 145 pounds Mushy's title would not be in danger.

After his workout yesterday afternoon Baker scaled a light 141 pounds. Manager Steve Webber asserted his fighter can take off the extra pound very easily.

Baker Seeks This Title.
Baker and his manager believe they have a great chance to take the junior welterweight championship fight to New York. Sammy asserted he felt fine after his workout yesterday and does not believe the loss of an extra pound will weaken him. Sammy is confident he can beat the champion, and with everything to win and nothing to lose he will take all sorts of chances to stay over a right hook or swing, his two best punches.

Eddie Seeks, manager of Callahan, does not fear Baker. The champion's pit asserted Baker will need all the weight and strength he can muster. Eddie believes there is no fighter who scales under 147 pounds who can defeat Callahan. Eddie also agreed that Mushy's title will be at stake if Baker scales 146 pounds or under.

Loaysa Meets Myers.
Although the Baker-Callahan fight is the feature of the card, the ten rounder between Spig Myers of Pocatello, Idaho, and Stanley Loaysa, the South American, is being rated by many as the best fight on the card. Loaysa is the idol of the fans who frequent the Mullen gymnasium, where all fights are working. They like his punches and take style. They admire his punching ability and aggressiveness. He fights along the same lines as Myers, who has been seen in action in local stags several times.

64 Open Play for City Tennis Title Today

The business of crowning a new Chicago men's singles champion will begin today at the Chicago Town and Tennis club when the city tennis tournament opens a week of play which will extend through Sunday.

George M. Lott Jr., city titleholder for the last four years, will not defend his crown, as he will be campaigning at the Agawan Hunt club, Providence, R. I. Lott intends to remain in the east until after the major tournaments so as to gain as much experience as possible on grass courts.

Sixty-four players have entered the scramble for the men's title, with Lucien E. Williams, second ranking to Lott in the west, and Johnny Henneman, Indianapolis star, heading the list.

Among the outstanding local players who figure to give the favorites a tussle are Walter T. Hayes, former champion; A. L. Green Jr., Ellis Klingeman, Art Kaser, Jay Chappel, Charles and Leo Lebeck, Ralph Elce, George Jennings, Jerry Weber, Jack Harris, John Rolley and Leroy Wier.

Americans Offer \$350,000 for Call Boy, Report
LONDON, July 10.—(U.P.)—An announcement that the racing stable of Frank Curson would be sold in October quickly brought reports that bidding already had started for Call Boy, this year's Derby winner. An American syndicate, it is rumored, was trying to buy Call Boy privately, and had offered \$350,000 for him—about the market price of any Derby winner. Curson's secretary immediately denied that he had received any offer.

100 Women Tee Off Today for Chicago Golf Crown

BY HARLAND ROHM.

First of this year's important women's tournaments in the district, the week's war for the Chicago championship of the Women's Western Golf association, will begin at North Shore at 9 o'clock this morning. More than 100 women will tour the course today in the 18 hole qualifying round for the sixteen places in the championship flight, for exactly 100 early entries have been paired for starting times, and tee entries will be accepted.

Miss Virginia Van Wye of Beverly, boyish youngster with a man's swing, and present champion, will be first of the tee, paired with Mrs. Austin Pardee of Indian Hill, city champion in 1925.

Except Miss Wilson, who still has a handicap of two, chiefly because she hasn't played much in this section, these are scratch golfers. Doubtless Mrs. Melvin Jones of Olympia Fields, another scratch player, runner-up last year and one of the finest match players in the west, will enter.

There are five but there are 100 others, all of whom are good golfers and from among whom will come the players to cause the upsets that are part of every golf tournament.

The schedule of the tournament calls for an 18 hole qualifying round today, with sixteen to qualify for the championship and three other flights of sixteen each. Tomorrow will be the first round of match play at 10 holes, with play of one round each day continuing until the final Saturday. All match play rounds are scheduled to begin at 9 o'clock.

The Cook County boys golf championship will be held at Garfield park, under auspices of the park golf club starting this morning. Entries will be accepted at the tee until 1 o'clock. The tournament is for all boys between 14 and 17 years of age inclusive. Entry fee is 25 cents.

Minnesota sends emphatic denial that its pride, Lester Bolstad, national city of Minnesota student, national public links golf champion and Big

SOUDERS HITS 75 MILE AVERAGE TO WIN ROBY RACE

Canton Finishes Second; Pettitcord Third.

George Souders, winner of the 500 mile speedway classic at Indianapolis on Memorial day, wheeled his Duesenberg at Roby yesterday in record time to win the 75 mile feature race from a field of the greatest dirt track drivers in the country.

Shorty Canton of Detroit, in a Miller, flashed across the line in second place, a half lap ahead of Jack Pettitcord of Los Angeles in a Boyle Valve Special. "White" Sloan of Los Angeles was fourth and Louis Schneider of Indianapolis fifth.

Souders, maintaining a steady pace throughout the grind, took the lead shortly after the start and was never headed. He covered the 75 miles in sixty minutes and 41 seconds for an average of nearly 75 miles an hour.

Jack Pettitcord clung to second place through most of the race until he encountered spark plug trouble on the 73d lap, when he was only one half lap behind the flying Souders. Canton passed him while he was making repairs, but Pettitcord got up in time to finish third.

Baumann Drives 3 Cars.
Dutch Baumann provided most of the thrills for the crowd by handling three cars during the race. His original mount, a Fronty Ford, developed engine trouble on the 18th lap. Baumann then hopped into Les Allen's Miller and had worked his way up to fourth place on the 46th lap when his gas tank bounced off. Dutch then took up the chase in Bruce Miller's front drive Miller and was rapidly overtaking the leaders when he skidded on the turn and landed his car in a pond.

LEAGUES MEET TONIGHT.
Plans for championship competition will be outlined tonight when the Chicago Juvenile, Junior, Liberty, and Boys leagues meet at 100 North La Salle street.

THE CHASE NATIONAL BANK OF THE CITY OF NEW YORK, AMERICAN TRUSTEE FOR NOTES
DEUTSCHE BANK, BERLIN, GERMAN TRUSTEE FOR NOTES

The following information regarding the Hanover State Credit Institute and its issue of 3½-Year 6% First Mortgage Collateral Gold Notes has been summarized for us by Dr. Wolfgang Dreeschler, Managing Director of the Institute and Dr. Martin von Campo, Landeshauptmann of the Province of Hanover.

THE HANOVER STATE CREDIT INSTITUTE was founded in 1840 as the Bank of the Kingdom of Hanover. Under the Prussian Law of December 25, 1869 the Institute became a public bank under the supervision of the Province of Hanover. The Institute has no share capital and is not operated for profit. As of April 30, 1927, the accumulated reserve fund, management fund and the real estate owned (free of lien) aggregated approximately \$800,000. Its primary purpose is to further agricultural development by the granting of loans secured by first mortgages on productive agricultural properties not in excess of 40% of the conservatively appraised value of such properties. As of April 30, 1927, the Institute had outstanding the equivalent of approximately \$11,000,000 Land Mortgage Bonds and \$7,464,352 other obligations, all secured by individual first mortgages. Short term credit obligations against agricultural bills amounted to the equivalent of approximately \$2,127,000. All interest and other payments due to the Institute under the individual first mortgages are enforceable in the same manner as taxes are collected by the Government without appeal to any Court, and the Institute's claims rank prior to all other claims with the exception of taxes.

PURPOSE: The proceeds of the proposed 6% Notes are to be used by the Institute solely for the purpose of granting to farmers, loans secured by first mortgages on improved agricultural properties.

SECURITY: The \$4,000,000 First Mortgage 6% Collateral Gold Notes will constitute the direct and unconditional obligation of the Institute and will be secured by pledge with the Trustees of 6% Goldmark Agricultural First Mortgage Bonds of the Institute, equivalent in principal amount, at the rate of 4.20 Goldmarks to the dollar, to the principal amount of this issue of dollar Notes. By the terms of the Institute's Charter the Province of Hanover is unconditionally liable for the obligations of the Institute.

The 6% Goldmark Agricultural First Mortgage Bonds of the Institute will be secured by an equivalent amount of individual first mortgages on productive agricultural properties, to the extent of not exceeding 40% of the conservatively appraised value of such properties which have buildings, equipment and live stock. These last three items, however, are not included in the appraised value which is based on appraisals made by the taxing authorities of the State of Prussia for the assessment of the capital tax. Mortgages are granted only on revenue producing property. Such Bonds of the Institute constitute legal investments in Germany for Trustees Funds.

Pending the deposit with the German Trustee of said 6% Goldmark Agricultural First Mortgage Bonds, the net proceeds of the sale of the Notes will be deposited with the American Trustee as security for the Notes, to be withdrawn pro-rata as the said 6% Goldmark Agricultural First Mortgage Bonds are deposited in definitive form.

GENERAL: The province of Hanover, the second largest in the State of Prussia, embraces an area of approximately 15,000 square miles and has a population of about 3,215,000. The Province is mainly agricultural, the principal crops including rye, flax and potatoes. The industrial development within the Province includes coal and ore mines, iron and steel works, chemical plants and railroad-equipment works.

Conversions of Goldmarks into U. S. currency are made at the rate of 4.20 Goldmarks to the Dollar.

The First Mortgage 6% Collateral Gold Notes of the Hanover State Credit Institute described above will be registered in the name of, and will be payable to, The Chase National Bank of the City of New York and will be deposited with and held by said Bank for the pro-rata benefit of the holders of these Participation Certificates.

We offer the above Participation Certificates subject to receipt by us of the First Mortgage 6% Collateral Gold Notes of the Hanover State Credit Institute, when, as and if issued, and subject to the approval of all proceedings in connection with the Dr. Fritz Oppenheimer and these Participation Certificates by our counsel, Messrs. Rushmore, Stishes & Stern, New York, and by Messrs. Oppenheimer and these Participation Certificates by all parties to the said agreement. The delivery will be made on or about July 15, 1927 in the form of Interim Receipts or Temporary or Definitive Participation Certificates.

Match Rise Industrial Feature.

Apart from the spectacular rise in Bryant and May matches following an agreement with the Swedish Match company, industrial movements generally were uninteresting. Generally, Bryants were underbought to 30 shillings, but the Swedish shares were hardly affected.

A poor market was experienced in oils. There were a few courageous buyers for some of the principal companies such as Shell, Esso, and American and Burmah, apart from this the interest was subdued, owing to overproduction and the aftermath of the British controlled slump of last week.

active, with the Caltex Company in America up 6 points to 85. Standard was outstandingly good, but the oil generally was uninteresting and inactive, with a total loss of 14 points.

Interest Off in Share Market.

Interest in share shares has fallen. It is considered that some of the greatly reduced earnings of the public as reflected in the relatively lower passenger traffic shares has a bearing on the fortunes of share companies this current season. The explanation for this may exist not much further apace than expected at present.

The mining stocks generally were flat, with the Paria the buyer of the such as Debeers diamonds, Gemco,

Artificial silk shows again were fairly strong. Acetates and Hand Mimos.

INDUSTRIAL BUILDINGS

The illustration depicts a large, multi-story industrial building with a prominent curved roofline and a grid of windows. In the foreground, several vintage cars and trucks are parked or driving on a road. One truck on the right has 'PACIFIC ELECTRIC' and 'CHICAGO' visible on its side. The scene is set in a stylized, mid-20th-century manner.

LEECH DECLARES
1927 DISPROVES
WOE'S PROPHECY

BY HARPER LEECH.

What of the future? So many have discussed the probable trend of business in the latter half of 1927 that it is almost impossible to say anything new. However, there are two slants on it which have been overlooked. Such recession as has taken place in production here and there has come for reasons which have not been forecasted by any of those advocates of the cycle theory, who were predicting a general slump this time a year ago.

They predicted a slump for these reasons, [a] unfavorable balance of trade which developed early in 1926, [b] installment buying, [c] recession of building.

Whether business be good or bad now, and it all depends on what kind of business you are talking about, this much is certain—none of the three factors above mentioned is responsible. In the early part of 1927 we have had a favorable balance of trade, reversing the condition of 1926. Cheap credit largely is responsible for that, as it also is responsible for more textile activity in this country. Installment buying is no longer a subject of complaint and foreboding, and the evolution of consumer financing into a well ordered and controlled system is not to our credit and financial system.

Now for another interesting side light. The present amplitude of credit is not altogether reflected in broker loans and bond flotations. It is reflected in the planning and initiation of many great engineering projects, which will at an early date be reflected in expanded payrolls and orders for machinery and materials.

J. M. Mercer, editor of the Journal of the Western Society of Engineers, on being asked by this column what engineers are doing now consulted the engineering department of the society. He says:

"The better grade of engineers are busy. Seldom has there been a steadier demand for the more mature and experienced—the men who do the original planning of big jobs which materials later."

"I am under the impression that a large number of medium sized projects are being initiated, rather than a few big ones. It is certain that engineers for engineers, whose brains are employed in the processes of design, is better than that of those who are employed on actual construction."

"There is an excess of the younger engineers, the men one or two years out of school, who do the minor detailed work on actual construction."

"When designs now being created, fruit into actual work we expect a better demand for the junior grades. In fact, there has been a distinct firming of demand for these younger men in the last 30 days—indicating the passage of many projects from the planning to the construction stage."

It is perhaps needless to point out that Mr. Mercer's observation dovetails exactly with the trend of construction statistics.

17 years of growth

Wrigley Bldg., Chicago

A \$15,000 page rate has no obliging friends.

The American Weekly, like the "bold knight of old," must battle its way through every list.

It secures no contracts through "fair-haired" influence or kindly favor.

\$15,000 a page puts it out of the "Let's-help-Old-Bill's-boy," and "We-might-as-well-throw-a-little-business-to-Charlie," class.

The third assistant space buyer and the sales manager's stenographer can't influence its selection.

It's a *think-before-you-look* rate, a *stop-look-and-listen* rate—a rate that provokes verification and invokes comparisons.

Every order must submit to an inquisition of facts and figures; every contract first runs a gamut of quizzes and questions.

Price and magnitude practically confine its service to the bigger units of industry—to corporations and concerns whose scale of operation and spread of distribution compel *market saturation* and require broad-visioned experts in apportioning their appropriations.

That's how we get *our* business: we sell on *production* records, not on golf links, frat pins and obsolete tradition.

We sell *five* million circulation—we sell the fourteen *pivotal* markets and seven hundred *best* towns—we sell a transcontinental *steam roller* that *crushes* a market resistance against which no *other* medium has ever *lastingly* prevailed.

Eye Makeup Is the Most Tricky of All the Cosmetic Arts

BY DORIS BLAKE.

Curiously enough two letters reached me in the same mail, one from the widowed mother of an only son and the other from an only daughter of a widowed mother, each relating the difficulties of their lonely positions in life.

Which is the greater tragedy—the only child or the widowed mother of an only child? It is hard to say. One's sympathies, however, are more apt to be given to the child upon whom mother or father has laid all their love and interests. One somehow expects the older woman with time to have served certain lessons of life and to have heeded other warnings not to let a consuming passion for an only child shatter her life completely when a separation from her idolized one comes.

The mother of an only son upon whom his parent has fastened every breath of her affections is in a sorry way when, in the natural course of events some younger woman weaves him away from her. It is inevitable that the time must come when she will be forced to take second place. The only prevention of the unhappiness that crushes is to so build up a life that the idolized one, removed of home and children, that is where her duty lies.

There is a medium green paint that is best for the green eyed blonde. This eye, with a very dark eye shadow, makes the hardest boiled kind of eye. In fact, the blonde has to be more skilful in this art of eye makeup than the brunette.

For brown eyes there is a warm seal that strengthens the color, and for the black eyes there is a black paint.

When applying the color to the eyes, use the tip of the finger and smooth it lightly over the upper lid. In nine cases out of ten the lower lid is better left untouched at all.

BEAUTY ANSWERS

MISS D. M. L. WRINKLES BETWEEN the eyebrows suggest eyestrain. They may be due to a careless habit of wrinkling the forehead when reading. If eyestrain is responsible, help will be given. Again, you may not be getting the required eight hours sleep each night.

In one of the grand new hotels of that classic city—a bit too grand for some of us, or it seemed eccentrically so—there was this item on the menu: "Le Delice du Colonel Lindbergh."

The waiter had evidently got used to anticipating the query as to what it was, and described briefly and inadequately as pistachio ice cream over candied fruit.

The cream was shaped like an ordinary round mound, but across it was piped something that looked a bit like the body of a humpbacked bug with pink wings and a brown spear down its back. The pink wings looked like candied rose leaves, but were thin pink macaroons hardly more than an inch in diameter, or the size of rose leaves, and bent or curved like them.

The brown spear was a piece of a tiny rolled chocolate wafer. There was a little flag on one side which I carefully removed before it could be missed. I would rather it would not be used for musing.

Perhaps fresh fruit under the ice cream would have been pleasant than the candied. O, yes, it cost seventy-five cents, one-third of which price was for the name.

MISS D. M. L. WRINKLES BETWEEN the eyebrows suggest eyestrain. They may be due to a careless habit of wrinkling the forehead when reading. If eyestrain is responsible, help will be given. Again, you may not be getting the required eight hours sleep each night.

In one of the grand new hotels of that classic city—a bit too grand for some of us, or it seemed eccentrically so—there was this item on the menu: "Le Delice du Colonel Lindbergh."

The waiter had evidently got used to anticipating the query as to what it was, and described briefly and inadequately as pistachio ice cream over candied fruit.

The cream was shaped like an ordinary round mound, but across it was piped something that looked a bit like the body of a humpbacked bug with pink wings and a brown spear down its back. The pink wings looked like candied rose leaves, but were thin pink macaroons hardly more than an inch in diameter, or the size of rose leaves, and bent or curved like them.

The brown spear was a piece of a tiny rolled chocolate wafer. There was a little flag on one side which I carefully removed before it could be missed. I would rather it would not be used for musing.

Perhaps fresh fruit under the ice cream would have been pleasant than the candied. O, yes, it cost seventy-five cents, one-third of which price was for the name.

[What Lindbergh dainties have you seen?]

OFFICIAL WEATHER FORECAST

BY DORIS BLAKE.

Curiously enough two letters reached me in the same mail, one from the widowed mother of an only son and the other from an only daughter of a widowed mother, each relating the difficulties of their lonely positions in life.

Which is the greater tragedy—the only child or the widowed mother of an only child? It is hard to say. One's sympathies, however, are more apt to be given to the child upon whom mother or father has laid all their love and interests. One somehow expects the older woman with time to have served certain lessons of life and to have heeded other warnings not to let a consuming passion for an only child shatter her life completely when a separation from her idolized one comes.

The mother of an only son upon whom his parent has fastened every breath of her affections is in a sorry way when, in the natural course of events some younger woman weaves him away from her. It is inevitable that the time must come when she will be forced to take second place. The only prevention of the unhappiness that crushes is to so build up a life that the idolized one, removed of home and children, that is where her duty lies.

There is a medium green paint that is best for the green eyed blonde. This eye, with a very dark eye shadow, makes the hardest boiled kind of eye. In fact, the blonde has to be more skilful in this art of eye makeup than the brunette.

For brown eyes there is a warm seal that strengthens the color, and for the black eyes there is a black paint.

When applying the color to the eyes, use the tip of the finger and smooth it lightly over the upper lid. In nine cases out of ten the lower lid is better left untouched at all.

VOLUME LX

AS

DRYS GROC
FOR 1928
OF PROPAG

Plan Is for 1
Massmeet

BY ARTHUR SEARS
(Chicago Tribune Photo)
Article 3.

Washington, D. C., July 10. (AP.)—The Anti-Saloon League today put over national prohibition for another year.

It has decreed that no other wet shall for President next year to its regular \$2,000,000 for maintaining and enforcement it is raising a \$500,000, and is planning 100 massmeetings in the wet candidates for President.

Held Threat Over. It recently transpired that President Coolidge is bidding if he wants to get busy and beat Al Smith in the Democratic nomination, conveyed to the President A. Haynes, liaison officer of the Anti-Saloon League and the government enforcement unit, under the Rev. Arthur J. Brown, head of the league's executive committee.

"If Al Smith," wrote to Maj. Haynes, "is in getting the Democratic nomination in the present situation, he will defeat any other man that means any name. This is tremendously important and the whole administration become aggressive and prohibition enforcement of the major parties and out for prohibition enforcement in the next national convention."

Be More Aggressive. "Of course, if Al Smith should control in the Democratic convention, such declaration possible there. What in the case, the Republic ought to make such declaration or equivocate. I want you to think over carefully and to the President and his influential advisers in the situation. The only way to meet the prohibition of the Democratic personalities and to be more aggressive militant for prohibition."

Dry League Dies. This letter was dated since the Anti-Saloon League committee chairman Al Smith invincible if governor has become a midable contender for the White House, the signs of party of the league. Incidentally the letter was in which the league orders to government, it has put in high place prohibition enforcement. It had been appointed prohibition commissioner by President Coolidge at the time of the league's demonstration but was still on the pay roll. Dr. Barton, the league's dissatisfaction with the administration.

Sovereignty vs. Supremacy. Haynes recently was a spirited clash between the prohibition bureau was the adjournment of the league's prohibition commission of the super-sovereignty selection and compelled the league. But so unwillingly and temporarily Haynes acting as a super-sovereignty the sovereignty to make a sovereignty revolt against the ranks of the dry. Dr. Barton, former independent of the Anti-Saloon League, now leader of another prohibition organization, Wheeler's dictatorship.

A Conditional. With the dry drive took courage, handed the prohibition unit to the ship. Super-sovereignty revolt, the first in its history, was a victory for the dry. Secretary Mellon and Secretary Mellon's valuable understanding.
